

Module 3 Query Description

Question 1

Question:

How many entries are for Fall 2026?

Answer:

33,083 entries.

Query Description:

I counted all rows where the term field equals "Fall 2026".

Question 2

Question:

What percentage of entries are from international students (not American or Other)?

Answer:

46.86%.

Query Description:

I counted all entries with student type equal to "International" and divided by the total number of entries.

Question 3

Question:

What is the average GPA, GRE, GRE V, and GRE AW of applicants who provide these metrics?

Answer:

- Average GPA: 3.77
- Average GRE: 260.98
- Average GRE V: 161.14
- Average GRE AW: 9.20

Query Description:

I used the AVG() function to calculate the average values of GPA and GRE-related fields.

Question 4

Question:

What is the average GPA of American students in Fall 2026?

Answer:

3.79.

Query Description:

I calculated the average GPA for applicants whose student type is "American" and whose term is "Fall 2026".

Question 5

Question:

What percent of entries for Fall 2026 are Acceptances?

Answer:

35.84%.

Query Description:

I counted Fall 2026 entries with a status beginning with "Accepted" and divided by the total Fall 2026 entries.

Question 6

Question:

What is the average GPA of applicants who applied for Fall 2026 and were accepted?

Answer:

3.78.

Query Description:

I calculated the average GPA for Fall 2026 applicants whose status begins with "Accepted".

Question 7

Question:

How many entries are from applicants who applied to JHU for a master's degree in Computer Science?

Answer:

18 entries.

Query Description:

I counted records where the program is Computer Science at Johns Hopkins University and the degree contains "Master".

Question 8

Question:

How many entries from 2026 are acceptances from applicants who applied to Georgetown University, MIT, Stanford University, or Carnegie Mellon University for a PhD in Computer Science?

Answer:

- Carnegie Mellon University: 4
- Massachusetts Institute of Technology (MIT): 4
- Stanford University: 7

Query Description:

I filtered for PhD applicants, accepted status, Computer Science programs, and entries added during 2026. I then grouped the results by program (university).

Note:

No Georgetown University records remained after all filtering conditions were applied.

Question 9

Question:

Do the numbers for Question 8 change if LLM-generated fields are used?

Answer:

- Carnegie Mellon University: 4
- Massachusetts Institute of Technology: 4
- Stanford University: 7

Query Description:

I repeated Question 8 using the LLM-generated university and program fields instead of the downloaded program text.

Observation:

The results did not change.

Question 10 (Additional Question)

Question:

How many applications were submitted to Artificial Intelligence master's programs, and what was the acceptance rate?

Answer:

- Total applications: 79
- Acceptance rate: 79.75%

Query Description:

I filtered records whose degree is "Masters" and whose program contains "Artificial Intelligence". I then used CASE WHEN to calculate the percentage of accepted applicants.

Question 11 (Additional Question)

Question:

What are the application counts and acceptance rates for Johns Hopkins University and the University of Texas at Austin?

Answer:

University	Applications	Acceptance Rate
Johns Hopkins University	635	34.96%

University	Applications	Acceptance Rate
University of Texas at Austin	554	34.84%

Query Description:

I grouped records by university and calculated both the number of applications and the percentage of accepted applicants.
