

1. query output

```
(.venv) (base) lyuan@liqings-Air jhu_software_concepts % python module_3/query_data.py

1. How many entries are for Fall 2026?
-----
33083

2. What percentage of entries are from international students (not American or Other) ?
-----
46.86%

3. What is the average GPA, GRE, GRE V, GRE AW of applicants who provide these metrics?
-----
3.77, 260.98, 161.14, 9.20

4. What is their average GPA of American students in Fall 2026?
-----
3.79

5. What percent of entries for Fall 2026 are Acceptances (to two decimal places)?
-----
35.84%

6. What is the average GPA of applicants who applied for Fall 2026 who are Acceptances?
-----
3.78

7. How many entries are from applicants who applied to JHU for a masters degrees in Computer Science?
-----
18

8. How many entries from 2026 are acceptances from applicants who applied to Georgetown University, MIT, Stanford University, or Carnegie Mellon University for a PhD in Computer Science?
-----
Computer Science, Carnegie Mellon University, 4
Computer Science, Massachusetts Institute of Technology (MIT), 4
Computer Science, Stanford University, 7

9. Do your numbers for question 8 change if you use LLM Generated Fields rather than your downloaded fields
-----
Carnegie Mellon University, 4
Massachusetts Institute of Technology, 4
Stanford University, 7

10. How many applications were submitted to Artificial Intelligence master's programs, and what was the acceptance rate?
-----
79, 79.75%

11. What are the application counts and the acceptance rate of JHU and UT Austin?
-----
Johns Hopkins University, 635, 34.96%
University of Texas at Austin, 554, 34.84%
```

2. running webpage

Update Analysis

GradCafe PostgreSQL Analysis

This page displays SQL analysis results from the GradCafe applicant database.

Data Controls

Pull Data: This button runs the Module 2 scrape and clean code to check GradCafe for new entries. If new data is available, the local PostgreSQL database is updated.

Pull Data

Note: This process may take some time because it opens a browser, checks recent GradCafe pages, cleans the scraped data, and inserts new records into PostgreSQL.

Update Analysis: The top right button refreshes the analysis using the most recent data currently stored in the database. If a request to pull data is currently running, the analysis will not update.

Query Results

1. How many entries are for Fall 2026?

- 33083

2. What percentage of entries are from international students (not American or Other) ?

- 46.86%

3. What is the average GPA, GRE, GRE V, GRE AW of applicants who provide these metrics?

- 3.77, 260.98, 161.14, 9.20

4. What is their average GPA of American students in Fall 2026?

- 3.79

5. What percent of entries for Fall 2026 are Acceptances (to two decimal places)?

- 35.84%

6. What is the average GPA of applicants who applied for Fall 2026 who are Acceptances?

- 3.78

7. How many entries are from applicants who applied to JHU for a masters degrees in Computer Science?

- 18

8. How many entries from 2026 are acceptances from applicants who applied to Georgetown University, MIT, Stanford University, or Carnegie Mellon University for a PhD in Computer Science?

- Computer Science, Carnegie Mellon University, 4
- Computer Science, Massachusetts Institute of Technology (MIT), 4
- Computer Science, Stanford University, 7

9. Do your numbers for question 8 change if you use LLM Generated Fields rather than your downloaded fields

- Carnegie Mellon University, 4
- Massachusetts Institute of Technology, 4
- Stanford University, 7

10. How many applications were submitted to Artificial Intelligence master's programs, and what was the acceptance rate?

- 79, 79.75%

11. What are the application counts and the acceptance rate of JHU and UT Austin?

- Johns Hopkins University, 635, 34.96%
- University of Texas at Austin, 554, 34.84%
